

Babar Hashmi

AI Engineer - Machine Learning Specialist

ibabarhashmi@yahoo.com | linkedin.com/in/hashmi-babar | github.com/ibabarhashmi
Bangalore, India | Open to Relocation

Professional Summary

Results-driven AI Engineer with around 3 years developing production-ready ML solutions: deep learning, agentic AI systems, scalable deployment. \$50K+ cost savings, 92% model accuracy, 40% faster time-to-production. Custom agent engineering, LLM fine-tuning, MLOps, end-to-end ML pipelines. Founding AI R&D Hire (MTS) - Research Engineering track, building agentic systems 0 to 1.

Professional Experience

AI Engineer - QuillAI Network (QuillAudits) | Jul 2024 - Aug 2026

- > Production deep-learning models for smart-contract vulnerability detection: +25% audit accuracy, -60% manual review.
- > Custom agentic AI on Anthropic Claude SDK (tool-calling loops, agent harness); developer SDK across 3 business units.
- > Partnered with C-level stakeholders on client deployment and integration.
- > LLM fine-tuning: +25% contextual understanding, fewer escalations.

AI/ML Researcher - QuillAudits | Sep 2023 - Jun 2024

- > AI blockchain-auditing tool as lead AI engineer: +30% client engagement.
- > Statistical modelling over 100K+ smart contracts, 95% of vulnerabilities found.
- > Due-diligence analysis on \$50M+ investments with deep learning.
- > Agile delivery across cross-functional teams: 35% faster.

Key Projects

MEP Industrial Elements Detection (GroundingDINO, AWS)

- > 85% detection accuracy on 1K+ site images; 500+ daily inspections; -40% false positives.

Real-Time Pothole Detection (YOLOv8, Kafka, Streamlit, AWS)

- > 92% accuracy, sub-5s processing, 1000+ detections; REST APIs, municipal-scale deployment.

Financial Strategy Risk Scoring Engine (organon)

- > Deterministic scorecard over 7 risk axes from point-in-time data; groundedness-gated LLM; one-command verification.

DesiRAG - Hindi voice RAG (Python)

- > Hybrid retrieval over MSMARCO-XI with guardrails, sub-20ms latency (HH Goa 2026).

Agentic-Auditor - AI Smart Contract Auditor (TypeScript)

- > User-friendly on-the-go audit UX with Gemini-assisted reporting.

Technical Proficiencies

ML/AI: TensorFlow, PyTorch, Transformers, Hugging Face, Anthropic SDK, custom agent frameworks.
CV: YOLOv8, GroundingDINO, OpenCV, VLMs. Cloud/MLOps: AWS, OCI, Docker, CI/CD, monitoring. Eng: TDD, agent harness, SDK design. Lang/Data: Python, TypeScript, Bun, Solidity, SQL/NoSQL, Pandas, NumPy, Matplotlib, Plotly, Streamlit.

Certifications

- > Agentic AI Certified Associate - Oracle - Jul 2026.
- > Copado Certified AI - Copado - Jul 2026.
- > OCI Generative AI Certified Professional - Oracle - Jul 2024.
- > Prompt & AI Engineering Certification - MFT - Jun 2024.

Impact Snapshot

\$50K+ cost savings - 92% model accuracy - +25% LLM improvement - -60% manual review - agentic AI across 3 business units.
